COMPANY OVERVIEW

Advantage Network Solutions LLC is a veteran-owned, licensed Electrical Contractor in the State of Florida (License #EC13016514) operating within the telecommunications infrastructure industry. The company provides full turnkey project delivery — from site acquisition and architecture & engineering through permitting, electrical work, and construction management. Based in Vero Beach, FL, Advantage Network Solutions partners with wireless carriers, smart city programs, and infrastructure owners to execute complex, multi-market deployments on schedule and on budget.

CORE COMPETENCIES

- Site Acquisition & Lease Negotiation
- Architecture & Engineering (A&E)
- Construction Drawings & Permit-Ready Design
- Permitting & Regulatory Compliance
- Turnkey New Builds — Small Cell LTE/CBRS/5G
- Tiger Team Support
- Smart City Infrastructure (Turnkey)
- Permit Close-Out & Jurisdiction Coordination
- Utility Coordination (Duke, FPL, TECO, SDG&E, APS, LADWP, SCE)
- Civil Construction
- Construction Management & Multi-Market Oversight

WHY ADVANTAGE NETWORK SOLUTIONS

- Veteran-Led, Mission-Driven** — Veteran- and Minority-Owned Business, certified by the State of Florida, bringing military discipline and accountability to every project.
- True Turnkey Capability** — site acquisition through permit close-out under one accountable partner.
- Multi-Market Reach** — active delivery across FL, NC, AZ, and CA, with the ability to scale rapidly.
- Regulatory Expertise** — deep knowledge of zoning, jurisdiction coordination, and permitting.
- Proven Trust** — active contracts with MasTec Network Solutions, G2 Poles, and Vertical Bridge.
- Electrical License** — licensed Electrical Contractor in the State of Florida, License #EC13016514.

CURRENT ENGAGEMENTS

PERMIT CLOSE-OUT MasTec Network Solutions

Permit close-out services for cell towers across the State of Florida; a dedicated team coordinates with local jurisdictions to close open permits following tower completion.

OPERATIONS PARTNERSHIP G2 Poles

Continued operations and infrastructure support across North Carolina, Arizona, Florida, and California — building on ANS's track record scaling G2's national program to 11 active markets.

TURNKEY INFRASTRUCTURE DELIVERY Vertical Bridge

Turnkey new-build site development — site acquisition, A&E, electrical/utility coordination, permit close-out, and construction management, delivered end-to-end by one accountable team.

LEADERSHIP EXPERIENCE

OWNER & VICE PRESIDENT OF OPERATIONS

John Duran

A disabled combat veteran with 18+ years in military logistics, telecommunications, and construction. Part of the contractor team behind Verizon's initial 5G Ultra Wideband buildout in downtown Tampa ahead of Super Bowl LV, later expanding into surrounding FL jurisdictions (Orlando, West Palm Beach, Fort Lauderdale, Naples). Also supported Sprint & T-Mobile builds and directed IKE Smart City / Orange Barrel Media deployments (~\$6M/yr, 7 markets nationwide).

CO-FOUNDER & VICE PRESIDENT OF DEVELOPMENT

Luke Phillips

A Navy veteran with 20+ years in communications infrastructure — planning, design, construction, and maintenance. Luke leads project development from site acquisition through full deployment, with deep expertise in permitting, land use, and regulatory compliance, plus a strong background in financial management and stakeholder engagement that keeps projects on schedule, on budget, and positioned for long-term growth.
